

# New Technology Building

Cape Cod Community College, West Barnstable, MA

Winner: Design and Construction Award

## Project Description

Cape Cod Community College's new Technology Building required computer-oriented laboratory classrooms, staff and faculty offices, a lounge, and storage. The three-story, 27,000 sf facility is sited to provide easy access for all students from the existing campus and parking, and to allow for rational future development of the campus plan. This is the first LEED®-certified building sponsored by the Massachusetts Division of Capital Asset Management (DCAM). The project obtained a Gold rating from the U.S. Green Building Council (USGBC).
